

HOW TO FASCINATE® PERSONALITY TEST

Discover How the World Sees You

Most personality tests measure how you see the world, but the Fascination Personality Test looks at cues and signals that you are intentionally or unintentionally sending, to tell you how the world sees you. If you've already done a test such as Myers-Briggs, DISC or StrengthsFinder, you have a point of view on the way you see things. But with the Fascination Personality Test, you'll see yourself through the eyes of your co-workers, customers, prospects and more.
